

### Tilburg's Dutch Brown Ale

A beautiful, deep copper red in color, with soft, ripe malt flavors, luscious and caramelized. Well balanced without being bitter, the hop character is restrained. For a beer of it's modest alcohol, Tilburg's has delightful substance and a satisfying full-bodied character.

Tilburg's Dutch Brown Ale appeals to a wide range of beer enthusiasts from the novice just beginning their exploration of color and flavor to the experienced beer drinker who is seeking a sophisticated, delicious beer without pretense.

5% ABV
